

COPPER PEPTIDE ANTI-AGING SERUM

Features :

This anti-aging treatment is formulated with peptides to diminish aging signs. Copper Peptide and Pentapeptide aid in increasing collagen, oxygen utilization and faster skin repair. Reduce the formation of wrinkles and fine lines, while replenishing moisture and nutrients with moisturizing ingredients. This serum visibly improves the loose skin tissue and creates a younger looking.

Active Ingredients : Prezotide Copper Acetate (GHK-Cu), Palmitoyl Pentapeptide-3, Imperata Cylindrica Root Extract, Hydrolyzed Yeast Protein, d-Panthenol, Sodium Hyaluronate.

Directions : Apply on the cleansed and toned skin. Use twice daily.

Skin Types : All skin types.
