

Dr. BERTRAND®  
PARIS

High Potency  
EGF  
Repairing  
Cream

epidermal growth factor  
with ceramide

1 fl.oz (30ml)

# EGF

---

**Repair damaged skin tissue**  
**Minimize scars**

High Potency EGF Repairing Cream is a skin repair and anti aging treatment based on epidermal growth factor, ceramide and peptide. It stimulates cell communication and epidermal regeneration, then repairs the age related skin damage and enhances wound healing. Shea butter has anti-inflammatory and healing properties to protect skin from climate, pollutant and sun damages. This cream manifestly minimizes the appearance of scars and prevents wrinkles.

**INGREDIENTS:** Aqua, Cetyl 2-Ethyl Hexanoate, 1,3 Butylene Glycol, Butyrospermum Parkii (Shea Butter), Behenyl Alcohol, Glyceryl Stearate/PEG-100 Stearate, C12-15 Alkyl Benzoate/Tribeheninyl Ceramide NG/PEG-10 Phytosterol/Palmityl Hexapeptide-12 (Dermaxyl™), Sorbitan Stearate, Dimethyl Sulfoxide, Sodium Polyacryloyldimethyl Taurate/ Hydrogenated Polydecene/Trideceth-10, Dimethicone, Ammonium Acryloyldimethyltaurate/VP Copolymer, Xanthan Gum, Phenoxyethanol, Chlorphenesin, Recombinant Human Epidermal Growth Factor(m-EGF).

**DIRECTIONS:** Apply to the cleansed and toned skin. Use twice daily.

**CAUTION:** External use only. Avoid eye contact. Discontinue use if irritation occurs.
