

HAIR REGROWTH SERUM

Features :

Hair Regrowth Serum is an advanced hair loss treatment. Formulated with growth factor complex and plant extracts, this serum blocks the action of 5-alpha reductase and DHT which cause hair follicles to shrink, while reactivating dormant hair follicles to promote a natural cycle of growth. Regularly apply this serum to stop hair loss and improve thinning hair. Hair follicles regrow naturally, promote blood flow to the scalp, reactivate dormant hair-producing structures, increase hair follicle density.

Active Ingredients : Growth Factor Complex, Biotinoyl Tripeptide-1, D-Glucose & Glycine & L-Arginine & L-Proline & L-lecine & L-Serine & L-Glutamine & L-Cysteine, Swertia Japonica Extract, Serenoa Serrulata Fruit Extract, Panthenol, Collagen, Elastin, Sodium Hyaluronate.

Directions: Apply a few drops to the cleansed and dried hair roots. Gently massage the scalp for 1-5 minutes. Use once daily.
