

FRUIT ACID GEL 35%

Features :

Created with 35% glycolic and lactic acids, delivers a potent and gentle peeling. Effectively remove the outer layers of thickened or damaged skin, improving texture and tone while revealing noticeably smoother, healthier skin. Lactic acid is also a kind of AHA and one of moisturizing factors in the skin. Maintain moisture in the skin and improve stinging sensation associated with peeling procedures.

Active Ingredients : Glycolic Acid (35%), Lactic and Pyruvic Acids.

Directions : Apply evenly to clean face. Leave on skin for 1-3 minutes on first application. May increase 1 minute as skin becomes tolerant. The total residence time on the skin is 5 minutes. Rinse off thoroughly with a mild cleanser. Use once every 1-2 weeks.

Skin Types : Recommended for all non-problem skin. Not for sensitive skin.
